Concept 2: Red bus stops

Perry Pl to Quincy St

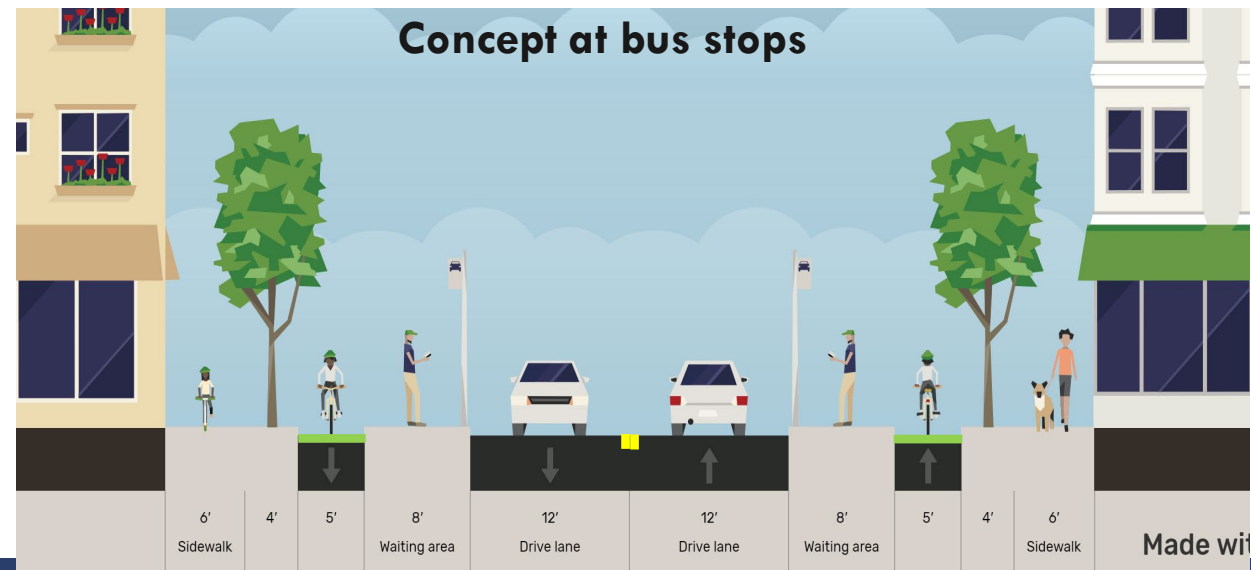

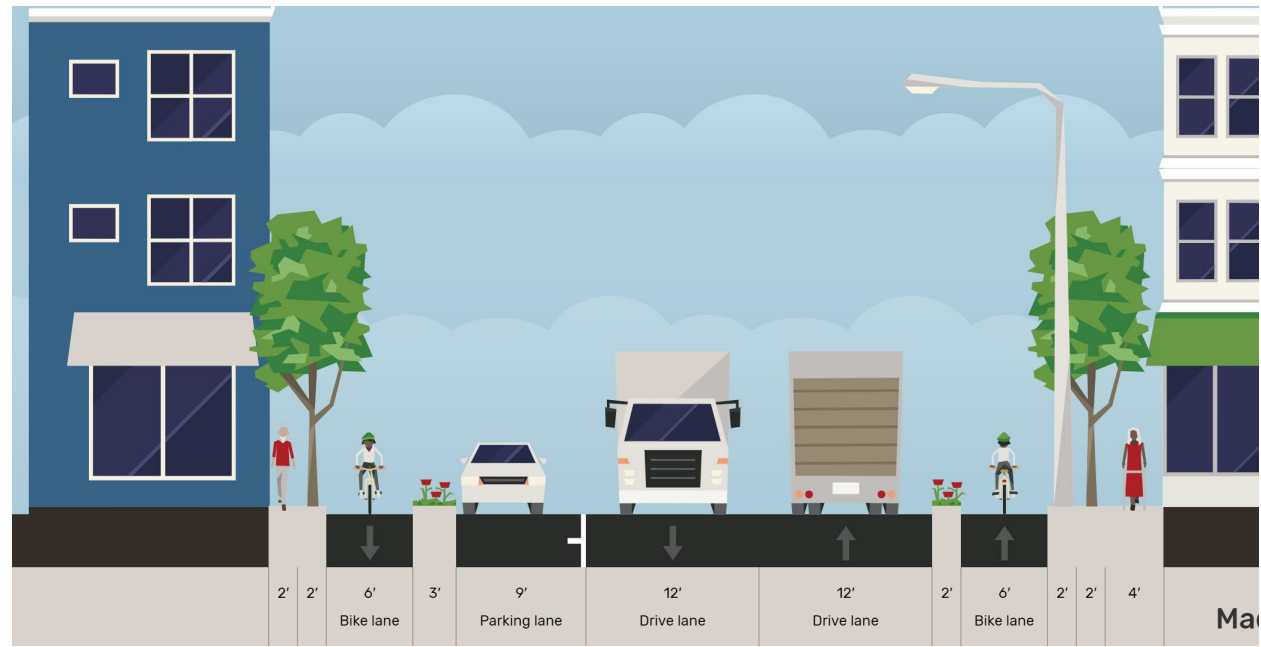

Concept 3: Protected Bike Lanes (PBL's) / Shared bus stops

- **Parking protected bike lane**
- **2-3' buffer**
- **9' parking aisle**
- **8' island loading platform/ parking lane**
- **12' travel lanes**
- **Bus stops shared with bike lanes**
- **Alternating block parking**

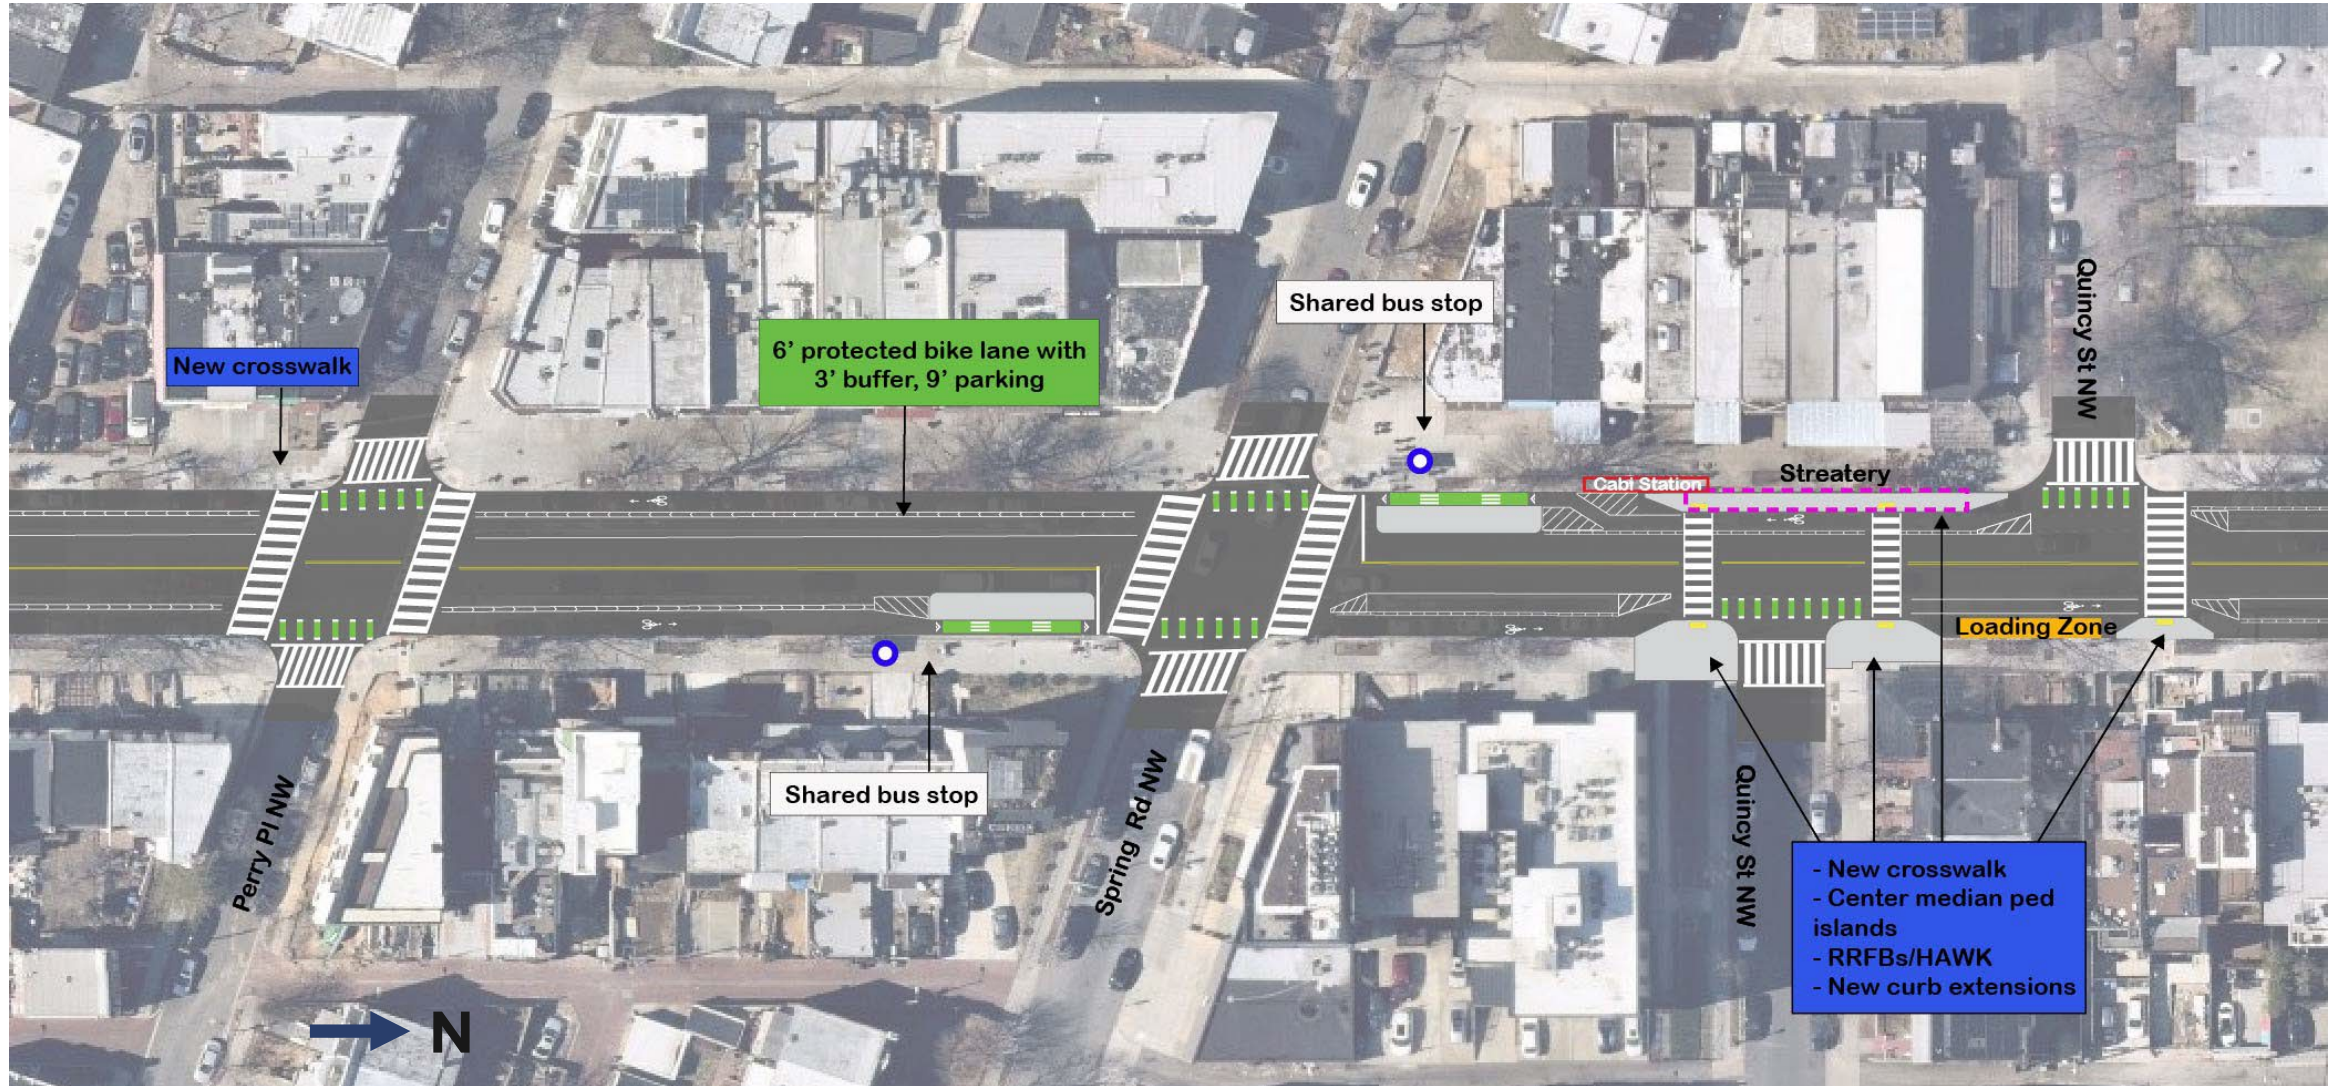

Additional enhancements:

- Stop rebalancing
- Traffic calming and ped safety installments
- Expanded bus stop area

Concept 3: Protected Bike Lanes

Perry Pl to Quincy St

14th St NW Decision Matrix

Roadway Configuration	Roadway Performance				
	Parking Supply	Traffic Operations	Multimodal Safety	Bicycle Level of Stress	Transit Benefit
Existing Conditions					
1. Shared Bus/ Bike Stops					
2. Red Bus Stops					
3. Protected Bike Lanes					

 Low LOS

 Medium LOS

 High LOS

*LOS – Level of Service

Provide comments:

For example:

- What is working well that shouldn't change?
- What feels unsafe or inconvenient?
- What would you like to be able to do differently in the future?
- What do we not know that can inform our plans?
